

MOONSTONE

PAMIO DESIGN

Moonstone, designed by Pamio Design, is an impressive and unique free-form monolithic element that is certain to add an artful touch to any setting. Moonstone is made of Pietre di Marmo (PDM) granite or marble, with a sanded or polished finish, with the exception of the lower portion. A varnished Okumé wood bench can be anchored directly to the element with steel brackets. The element is equipped with a leveling base for ingrounding.
