

A. Standard equipment for benches (4 pz)

Feet for ground laying composed by:

- 1 molded steel plate with central hole,
- 1 black plastic disc,
- 1 countersunk screw M10,

Screw the feet to the supports and regulate the height.

B. Accessory code 6010690

Feet for anchor, composed by:

- 1 molded steel plate with 2 holes,
- 1 black plastic disc,
- 1 countersunk screw M10,
- 1 brass anchor with countersunk screw M8

Screw the feet to the supports and regulate the height; for a correct installation make sure to rig the bench horizontally (using a bubble). Once stabilized the bench using wooden wedges, proceed with the fixing.

C. Accessory code 6010700

Feet with anchors for concreting, composed by:

- 1 molded steel plate with central hole,
- 1 black plastic disc,
- 1 threaded bar M10

Screw the feet to the supports and regulate the height; for a correct installation make sure to rig the bench horizontally (using a bubble). Once stabilized the bench using wooden wedges, proceed with the concreting.

D. Accessory code 6010590

Ground anchor for concreting, composed by:

- 1 bent threaded bar M10
- 1 nut M10

Screw the feet to the supports and regulate the height; proceed with the concreting as above.
