

NUVOLA bench is delivered pre-assembled for ground laying

If you need to fix it to the ground, the following tools are required:

1. Jackhammer
2. M8 anchors
3. quick-setting chemical concrete
4. hex key for screw M8

- 1) Find the installation area. Check that there are no sub-services.
- 2) Remove the screws that fix the base to the support.
- 3) Place the bench without bases on the surface, mark the position supports holes and drill the floor with diameter 10-15 mm.
