

Ultra High Performance Concrete (UHPC)

UHPC is available in three different colors, white, grey and dark grey, provided with smooth ALFA finish. UHPC can present ununiform cloudy effects of color and slight cracks which are physiological aspects of this material.

WHITE

GREY

DARK GREY

These images are merely indicative; please refer to physical sample.

Not all products are available in all finishes. In order to check the finishing available on each product, please refer to individual product data sheet for descriptions.

As a standard, the surfaces are treated with a special “Anti-deterioration” treatment, which increases the product’s life and resistance characteristics to rain erosion, mold and similar events.

On request, and at an additional cost, an “Anti-graffiti” treatment is available which permits the removal of vandalism carried out with different types of sprays and permanent markers.

Generally, UHPC products come equipped with bushings embedded in the stone, suitable for eyebolts to facilitate with the handling and installation.

It is very important to follow the manufacturer's “**Care and Maintenance**” guide to retain your product's warranty. In case of any doubt about the proper maintenance procedure, please contact id created, Inc. for support.

id created is a US based company with exclusive rights to distribute Metalco srl products in the US and Canada.
